

DRIP PANS

nochar's A675 Drip Pans™ are designed for the many applications that exists in normal industrial operations. Unlike plastic pans, **nochar's A675 Drip Pans** are formed from 100% natural recycled products. The A675 Drip Pans are filled with a combination of safe natural recycled material and **nochar's A600 Series™** bonding agents. This provides flexibility and safety in your operation at a very reasonable cost.
